Fifty four specimens of interest belonging to the genus *Cercyon* were examined during a visit to the Oregon State Arthropod Collection in November of 2018. These belong to 4 distinct species: *Cercyon luniger*, *C. fimbriatus*, *C. littoralis* and *C. setulosus*. Some of the specimens listed below were included in a specimen loan to the author (OSAC, 2018; 2018-11-28-001-01). All of the specimens were determined or re-determined by Suzumura during her visit.

Specimens were obtained from the determined and undetermined material.

Specimens examined:

Cercyon fimbriatus Mannerheim, 1852
